

GHOST MP / GHOST MP METAL AUTOMATIC SELF-PERFORATING PUNCHING MACHINE

High-performing automatic self-perforating punching machine for heavy PVC banners and textiles. Designed to be solid and durable. For high volumes users.

- > Fully automatic and extremely fast punching machine available in two versions:
 1. **Ghost MP** for plastic clear eyelets;
 2. **Ghost MP Metal** for nickel plated steel eyelets
- > High performing: up to 60 eyelets per minutes
- > Electro-mechanical working mode: by pushing the foot pedal the machine punches a hole in the material and applies the eyelet and the washer in one single operation
- > Specific pre-cutting function to avoid the curling of fabrics or very light materials: puncture + application of the eyelet in two different phases
- > Automatic loading of eyelets and washers for hands free working operations
- > Absolute precise application thanks to the laser pointer
Positioning washer sensor: the machine does not work if the washer is not in place
- > Adjustment of cutting pressure and eyelets closing
- > Touch screen control panel to easily set up the parameters such as: standard cutting, pre-cutting and many other functions
- > Powerful engine to cut through heavy materials
- > Solid and safe construction to satisfy high performances over time

SUITABLE FOR:

- PVC banner
- Mesh
- Fabric
- Non-woven fabric
- Truck tarpaulins
- Plastic materials

Working area protected by transparent guard

Large hoppers for eyelets and washers

Double raceway for washers
