

# Imageperfect iD9 White Gloss Slide

**Imageperfect iD9 Slide is a next generation of long-term, supersoft print films that incorporates a special 50 micron white gloss film, for use in fleet and vehicle wrap applications with compound curves, recesses and channels. It incorporates Imageperfect Slide technology with an exceptionally low level of initial tack and Air technology, for easy positioning and bubble-free application.**

Imageperfect iD9 Slide is equipped with Imageperfect Slide technology - a specially-engineered adhesive that has an exceptionally low level of initial tack (with high final adhesion) and a high level of "slideability" on a wide variety of substrates such as glass, ABS, PS and PVC. Combined with the Imageperfect Air technology, this allows for quick and easy repositioning of the graphics on the substrate by a single person, even in the case of large-scale installs. The product also has an antistatic liner which avoids any static related application issues. iD9 Slide offers long-term removability (facilitated by heat, when required).

Specifications	
<b>Description</b>	Long-term supersoft print film
<b>Colour</b>	White gloss
<b>Thickness</b>	50µm
<b>Weight</b>	N/A
<b>Adhesive</b>	Solvent based acrylic, permanent/repositionable, slidable, grey
<b>Adhesive Strength</b>	16N/25mm (Finat TM 1/24h)
<b>Release Paper</b>	Double sided PE-coated silicone paper, 160gsm
<b>Ink Compatibility</b>	UV, Latex and Eco-Solvent
<b>Recommended Laminate</b>	Imageguard iD9 Gloss and Matt
<b>Application method</b>	Dry application
<b>Temperature Range</b>	-30°C to +90°C
<b>Durability (unprinted)</b>	9 years
<b>Flame Retardancy</b>	B-s1, d0
<b>Shelf Life</b>	2 years, 20°C/50% humidity
<b>End of Life / Disposal</b>	Not currently recyclable. Can be used for refuse derived fuel (RDF)
