

PPF Film**GLOSS PPF 6 MIL****Product Size and Warranty**

Type	Thickness	Roll Size	Warranty
Gloss PPF	6 mil	1,52 m × 15 m	2 years

Technical Specifications

Coating type	heat self-healing
Base film thickness	125 µm
Gloss (Gloss PPF)	94,2%
Coating	15 µm
Adhesive	25 µm
Adhesion (applied on steel plate, 7 days)	8N~20N
Tensile Strength	15 Mpa
Weather resistance test	$\Delta E < 2$
Scratch resistance (brass brush, 750g, 10 times wipe)	No scratch
Self-healing ability	$\leq 5S$
Hydrophobic	√
Coating elongation	$\geq 100\%$
Elongation at break	$\geq 150\%$
Initial peeling force of acrylic adhesive layer (20min applied on steel plate)	$\geq 5 N$
Peeling force of acrylic adhesive layer/24h	$\geq 17,4 N$
Anti-yellowing (1000h)	$\Delta E < 1,8$

Additional Information:

The above information is based solely on our current knowledge and practical experience. The information is provided without any guarantee or agreement with regards to the quality or properties of the material. This information does not constitute a warranty of any certain quality, properties and/or durability concerning our color films.

IMPORTANT NOTE

Due to the variety of applications and the ongoing development of new applications, it is up to the buyer to determine the suitability and efficiency of the product for the respective purpose of use. The buyer bears all risks arising from the use of the product. All information is subject to change.
