

be.tex® Revolution FR

Art.No. 04435-XXXX-0026

Description

A display textile that unites everything and let the printer's heart beat faster. Compared to the standard display, it is softer, more crease-free, has a finer structure and is more opaque. Even detailed motives are perfectly reproduced. And it always shows its best side once glossy, once matt. Processing tip: Use a thin needle and a longer stitch. Important: Run a print test! Many factors influence the textile during printing and application. Thoroughly treated, the printed textile can be carefully folded. All information is based on experience, but is legally non-binding and without guarantee.

Main Application

Display

Applications

Banner

Display Frame System

Pop-up Displaysystems

Table cloth

Features

1 matt & 1 glossy side

Crease resistant

No fraying

Soft

Very soft
