

be.tex® Display allround FR

Art.No. 04281-XXXX-0026-BE

Description

be.tex® Display Allround FR is a good alternative, when you need to be very competitive for for big campaigns. A finer yarn is used for be.tex® Display Allround FR. The lower material usage makes the fabric lighter and less expensive. The features of this fabric are comparable to the 210 g material, but of course not the same. Simply test it. Ask for a sample role to run a printing test. Important: Run a print test! Many factors influence the textile during printing and application. All technical data were determined according to the current state of measurement technology and reflect the values of the measurement sample. Despite the highest quality standards, there may be production deviations – all information are legally non-binding and without guarantee.

Main Application

Display

Applications
